OWNER'S MANUAL

FCC COMPLIANCE STATEMENT

This equipment has been tested and found to comply with the limits of Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

SAFETY CONSIDERATIONS

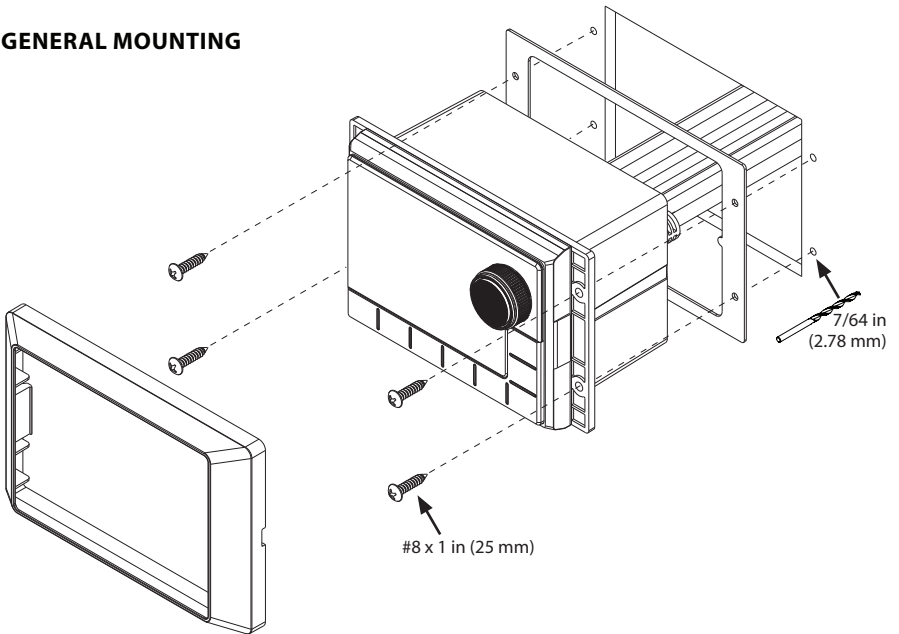

- Only use this product in vehicles with 12 volt, negative-ground electrical systems. This product is not certified or approved for use in aircraft.
- Securely mount this product so that it does not come loose in the event of a collision, sudden jolt or as a result of repeated vibrations during normal use.
- Do not replace the power wire fuse with one of a different value. Never bypass the fuse.
- Operate your audio system in a manner that still allows you to hear necessary noises to operate your vessel safely (horns, sirens, etc.).

INSTALLATION CONSIDERATIONS

- Read this manual completely before installation. Professional installation is recommended.
- Install in a dry, well-ventilated location that does not interfere with your factory-installed systems. If a dry environment is not available, a location that is not exposed to heavy splashing may be used.
- While this product is designed to be water-resistant, it should never be submerged under water or subjected to high-pressure water spray.
- Before drilling, verify that you will not be drilling into an exterior panel/hull, fuel tank, gas/brake line, wiring harness, or other vital system.
- Carefully route all system wiring away moving parts and sharp edges; secure with cable ties or wire clamps and use grommets and loom where appropriate to protect from sharp edges.

BLUETOOTH® AUDIO

You may wirelessly stream audio from a Bluetooth compatible device from up to 35 ft. away (11 m). Up to 8 devices can be paired to the MM105, but only one streaming device can connect at one time.

Pairing a new device:

1. Press **SOURCE** on the MM105 to access the **SOURCE: Select** menu.
2. Rotate **VOL/SEL** to highlight **Bluetooth** and press to enter **Bluetooth: Pairing Mode**.
3. Enable Bluetooth on your streaming device and scan for nearby devices; select MM105 (or your custom name) from your list of available devices to connect. Once connected, you may control your audio selections with the MM105 using the controls listed on page 9 or directly from your device.

Options for managing paired or additional Bluetooth devices can be accessed from the **Bluetooth: Main Menu**.

1. To access the **Bluetooth: Main Menu**, press **BACK/MENU** while in Bluetooth mode, then use **VOL/SEL** to make your selections.

USB CONNECTIONS

The MM105 includes two ports to connect with USB storage class devices (thumb drive, digital audio player, etc.).

USB 1: High-speed connection for use with iPhone®/iPod® (MFi Certified) or USB storage device (2.1 A charging output)

USB 2: Full-speed USB storage device connection (500 mA charging output)

Once connected, you may control your audio selections with the MM105 using the controls listed on page 9 or directly from your device.

! IMPORTANT

- Properly secure the connected device before driving to prevent damage from dropping or sudden acceleration/braking.
- Control, functionality and display may vary depending on the model and version of iPhone® connected.
- When connected via USB port, make sure to unpair or disable the Bluetooth connection to avoid possible playback conflicts.
- If you experience abnormal performance during operation, disconnect the iPhone® and check its condition. Restart your iPhone® if performance does not improve.
- “Made for iPhone” means that an electronic accessory has been designed to connect specifically to an iPhone® and has been certified by the developer to meet Apple performance standards. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards. Please note that the use of this accessory with an iPhone® may affect wireless performance.

SIRIUSXM® SATELLITE RADIO

Only SiriusXM® brings you more of what you love to listen to, all in one place. Get over 140 channels, including commercial-free music plus the best sports, news, talk, comedy and entertainment. Welcome to the world of satellite radio. A SiriusXM Vehicle Tuner and Subscription are required. For more information, visit www.siriusxm.com.

Activating Your SiriusXM Subscription

After installing your SiriusXM Connect tuner and antenna, power on your MM105 and select SiriusXM mode. You should be able to hear the SiriusXM preview channel on Channel 1. If you cannot hear the preview channel, please check the installation instructions to make sure your SiriusXM Connect tuner is properly installed.

After you can hear the preview channel, tune to Channel 0 to find the Radio ID of your tuner. In addition, the Radio ID is located on the bottom of the SiriusXM Connect Vehicle Tuner and its packaging. You will need this number to activate your subscription. Write the number down for reference.

Note: the SiriusXM Radio ID does not include the letters I, O, S or F.

In the USA, you can activate online or by calling SiriusXM Listener care:

- Visit www.siriusxm.com/activatenow
- Call SiriusXM Listener Care at 1-866-635-2349

For Canadian Subscription, please contact:

- Visit www.siriusxm.ca/activatexm
- Call XM Customer Care at 1-877-438-9677

As part of the activation process, the SiriusXM satellites will send an activation message to your tuner. When your radio detects that the tuner has received the activation message, your radio will

display: "Subscription Updated".

Once subscribed, you can tune to channels in your subscription plan.

Note: The activation process usually takes 10 to 15 minutes, but may take up to an hour. Your radio will need to be powered on and receiving the SiriusXM signal to receive the activation message.

Parental Controls

Some SiriusXM channels contain mature content. When the Parental Controls feature is enabled, channels with mature content are restricted and will require a 4-digit lock code to access.

Enabling Parental Controls

1. Press **BACK/MENU** to access the **SiriusXM: Main Menu**.
2. Turn **VOL/SEL** to **Parental Controls** and press to enter.
3. Press **VOL/SEL** to select **Lock Mature Channels**. After, you must enter a 4-digit lock code to lock mature content channels. (Parental Control default passcode: 0000)
4. Use **VOL/SEL** to enter the 4-digit lock code and select **Save** when finished.

Changing the Lock Code

1. Press **BACK/MENU** to access the **SiriusXM: Main Menu**.
2. Turn **VOL/SEL** to **Parental Controls** and press to enter.
3. Turn **VOL/SEL** to **Edit Lock Code** and press enter.
4. Use **VOL/SEL** to enter the current 4-digit lock code and select **Enter** when finished.
5. Use **VOL/SEL** to enter the new lock code and select **Enter** to confirm. **Make sure to save your 4-digit lock code for future reference.**

Low Voltage Alert

This built-in alert notifies when the +12VDC supply voltage drops below 10 volts. If triggered, the unit will enter Safe Mode and a warning tone will be heard through the speakers. A warning will also display on-screen with instructions to turn the unit off until normal operating voltage is restored.

1. Press and hold **SETTINGS** to access the **System Settings: Main Menu**.
2. Turn **VOL/SEL** to **Low Voltage Alert** and press to enter.
3. Turn **VOL/SEL** to select ON or OFF and press to enter.

AUDIO ZONE SETUP

The MM105 is equipped with four sets of low-voltage, line-level RCA outputs to send audio signals to your aftermarket amplifiers/equipment. Each output pair delivers full-range, low-distortion audio, arranged into four zones. Depending on your equipment and vessel, this will allow you to group speakers of an area together for flexibility and control of audio levels at separate zones. For example, you may prefer to reduce the listening level in an interior cabin, while keeping a louder audio level on the main deck.

Access the **Audio Zone Setup** menu to configure the functionality of each zone.

1. Press and hold **SETTINGS** to access the **System Settings: Main Menu**.
2. Press **VOL/SEL** to select **Audio Zone Setup**.
3. Use **VOL/SEL** to make selections.

Refer to the table below and the following page for each zone's available settings and functionality.

Limited Warranty – Electronics (USA)

JL Audio warrants this product to be free of defects in materials and workmanship for a period of **two (2) years** from the original date of purchase.

This warranty is not transferable and applies only to the original purchaser from an authorized JL Audio dealer. Should service be necessary under this warranty for any reason due to manufacturing defect or malfunction, JL Audio will (at its discretion), repair or replace the defective product with new or remanufactured product at no charge. Damage caused by the following is not covered under warranty: accident, misuse, abuse, product modification or neglect, failure to follow installation instructions, unauthorized repair attempts, misrepresentations by the seller. This warranty does not cover incidental or consequential damages and does not cover the cost of removing or reinstalling the unit(s). Cosmetic damage due to accident or normal wear and tear is not covered under warranty.

Products installed as original equipment by boat manufacturers are covered by the boat manufacturer's warranty, not JL Audio, Inc.

Warranty is void if the product's serial number has been removed or defaced.

Any applicable implied warranties are limited in duration to the period of the express warranty as provided herein beginning with the date of the original purchase at retail, and no warranties, whether express or implied, shall apply to this product thereafter. Some states do not allow limitations on implied warranties, therefore these exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state.

If you need service on your JL AUDIO product:

All warranty returns should be sent to JL Audio 's Electronics Service Facility freight-prepaid through an authorized JL Audio dealer and must be accompanied by proof of purchase (a copy of the original sales receipt). Direct returns from consumers or non-authorized dealers will be refused unless specifically authorized by JL Audio with a valid return authorization number. Warranty expiration on products returned without proof of purchase will be determined from the manufacturing date code. Coverage may be invalidated as this date is previous to purchase date. Non-defective items received will be returned freight-collect. Customer is responsible for shipping charges and insurance in sending the product to JL Audio. Freight damage on returns is not covered under warranty.
